SAFETY DATA SHEET

1. Identification of the product

GHS product identifier: High Temperature Couplant I-2
Other means of identification:
Product code: I-2/Q7700011

Recommended use of the chemical and restrictions on use
Recommended use: Couplant.
Recommended restrictions: None known.

Suppliers details
Supplier: Evident Scientific
Address: 48 Woerd Ave, Waltham, MA 02453, USA
Telephone: +1 781-419-3900
Emergency telephone number: CHEMTREC

2. Hazard identification

Classification of the substance or mixture
Physical hazards: Not classified.
Health hazards: Not classified.
Environmental hazards: Not classified.

GHS label elements, including precautionary statements
Hazard symbols: None.
Signal word: None.
Hazard statement: The mixture does not meet the criteria for classification.
Precautionary statement
Prevention: Observe good industrial hygiene practices.
Response: Wash hands after handling.
Storage: Store away from incompatible materials.
Disposal: Dispose of waste and residues in accordance with local authority requirements.
Other hazards which do not result in classification: None known.
Supplemental information: None.

3. Composition/information on ingredients

Mixtures

4. First-aid measures

Description of necessary first-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact: Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact: Rinse with water. Get medical attention if irritation develops and persists.
Ingestion: Rinse mouth. Get medical attention if symptoms occur.
**Most important symptoms/effects, acute and delayed**
Direct contact with eyes may cause temporary irritation.

**Indication of immediate medical attention and special treatment needed**
Treat symptomatically.

**General information**
Exposure to hot material may cause thermal burns. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

### 5. Fire-fighting measures

**Suitable extinguishing media**
Use fire-extinguishing media appropriate for surrounding materials.

**Unsuitable extinguishing media**
None known.

**Specific hazards arising from the chemical**
During fire, gases hazardous to health may be formed. Hydrogen fluoride.

**Special protective actions for firefighters**
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Fire fighting equipment/instructions**
Move containers from fire area if you can do so without risk.

**Specific methods**
Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**
No unusual fire or explosion hazards noted.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**
Avoid prolonged exposure. Keep unnecessary personnel away. In case of spills, beware of slippery floors and surfaces. For personal protection, see section 8 of the SDS.

**For non-emergency personnel**
Keep unnecessary personnel away. Be aware of potential for surfaces to become slippery. Use personal protection recommended in Section 8 of the SDS.

**For emergency responders**
Avoid discharge into drains, water courses or onto the ground.

**Environmental precautions**
Wipe up with absorbent material (e.g. cloth, fleece). After cleaning, flush away traces with water.

**Methods and materials for containment and cleaning up**
For waste disposal, see Section 13 of the SDS.

### 7. Handling and storage

**Precautions to ensure safe handling**
Avoid prolonged exposure. Do not breathe vapor from heated material. Observe good industrial hygiene practices. It is a good industrial hygiene practice to minimize skin contact. For prolonged or repeated skin contact use suitable protective gloves.

**Conditions for safe storage, including any incompatibilities**
Store in original tightly closed container.

### 8. Exposure controls/personal protection

**Control parameters**

**Occupational exposure limits**
No exposure limits noted for ingredient(s).

**Biological limit values**
No biological exposure limits noted for the ingredient(s).

**Control banding approach**
Not available.

**Appropriate engineering controls**
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Individual protection measures, such as personal protective equipment**

**Eye/face protection**
If contact is likely, safety glasses with side shields are recommended. Eye wash fountain is recommended.

**Skin protection**

**Hand protection**
For prolonged or repeated skin contact use suitable protective gloves. Suitable gloves can be recommended by the glove supplier.

**Other**
Wear suitable protective clothing.

**Respiratory protection**
In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment.

**Thermal hazards**
Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance
- Physical state: Liquid.
- Form: Grease.
- Color: Off-white.

Odor
- Odor threshold: Not available.
- pH: Not available.

Melting point/freezing point
- Melting point/freezing point: -60 °F (-51.11 °C)

Initial boiling point and boiling range
- Initial boiling point and boiling range: Not available.

Flash point
- Flash point: Non flammable.

Evaporation rate
- Evaporation rate: Not available.

Flammability (solid, gas)
- Flammability (solid, gas): Not applicable.

Upper/lower flammability or explosive limits
- Flammability limit - lower (%): Not available.
- Flammability limit - upper (%): Not available.
- Explosive limit - lower (%): Not available.
- Explosive limit - upper (%): Not available.

Vapor pressure
- Vapor pressure: < 0.001 torr (25 °C)

Vapor density
- Vapor density: > 1

Relative density
- Relative density: 1.85

Solubility(ies)
- Solubility(ies): Not available.

Partition coefficient (n-octanol/water)
- Partition coefficient (n-octanol/water): Not available.

Auto-ignition temperature
- Auto-ignition temperature: > 1300 °F (> 704.44 °C)

Decomposition temperature
- Decomposition temperature: Not available.

Viscosity
- Viscosity: 12 - 13 mPa·s

Other information
- Explosive properties: Not explosive.
- Oxidizing properties: Not oxidizing.

10. Stability and reactivity

Reactivity
- The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability
- Material is stable under normal conditions.

Possibility of hazardous reactions
- No dangerous reaction known under conditions of normal use.

Conditions to avoid
- None known.

Incompatible materials
- Strong oxidizing agents.

Hazardous decomposition products
- In case of fire: Hydrogen fluoride.

11. Toxicological information

Information on likely routes of exposure
- Inhalation: Not relevant at normal room temperatures. When heated, harmful vapors may be formed.
- Skin contact: No adverse effects due to skin contact are expected.
- Eye contact: Direct contact with eyes may cause temporary irritation.
Ingestion

No adverse effects due to ingestion are expected.

Symptoms

Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

Acute toxicity

Expected to be a low ingestion hazard.

Skin corrosion/irritation

No adverse effects due to skin contact are expected.

Serious eye damage/eye irritation

Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

Respiratory sensitization

Due to lack of data the classification is not possible.

Skin sensitization

This product is not expected to cause skin sensitization.

Germ cell mutagenicity

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity

This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.

Reproductive toxicity

Due to lack of data the classification is not possible.

Specific target organ toxicity - single exposure

Due to lack of data the classification is not possible.

Specific target organ toxicity - repeated exposure

Due to lack of data the classification is not possible.

Aspiration hazard

Not an aspiration hazard.

Other information

Not available.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

</table>

Persistence and degradability

No data is available on the degradability of this product.

Bioaccumulative potential

The product is not expected to bioaccumulate.

Mobility in soil

No data available.

Other adverse effects

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations

Disposal methods

Disposal instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Local disposal regulations
Dispose in accordance with all applicable regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations.

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
14. Transport information

ANTT
Not regulated as dangerous goods.

DOT
Not regulated as dangerous goods.

SCT
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to
Annex II of MARPOL 73/78 and
the IBC Code
Not applicable.

15. Regulatory information

International regulations

- Montreal Protocol
  Not applicable.

- Stockholm Convention
  Not applicable.

- Rotterdam Convention
  Not applicable.

- Kyoto protocol
  Not applicable.

- Basel Convention
  Not applicable.

International Inventories

*A “Yes” indicates this product complies with the inventory requirements administered by the governing country(s).
A “No” indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).

16. Other information

Revision date

- LD50: Lethal Dose 50%.

List of abbreviations

- LD50: Lethal Dose 50%.

Disclaimer

Evident Scientific cannot anticipate all conditions under which this information and its product, or the products of other manufacturers in combination with its product, may be used. It is the user’s responsibility to ensure safe conditions for handling, storage and disposal of the product, and to assume liability for loss, injury, damage or expense due to improper use. The information in the sheet was written based on the best knowledge and experience currently available.
